Much appreciation for following up Jennifer. It's looking like this week will not be feasible for the both of us, so please expect to hear from Willy on a mutually workable time next week when we might be able to join Sabrina and yourself for a call. I have already provided Willy with my availability next week, so he should be all set to coordinate with you on a time.

Thanks.

Willie and Jason,
Sabrina Forrest suggested I email you about a possible conference call Thursday beginning at 1 pm. Jason apparently told Sabrina that you already would be together for a prior conference call that day. We're hoping to get your ideas and input on involving the larger community in discussions about how to address water quality in the Upper Cement Creek and Animas River. We would especially like your thoughts on the role of the ARSG. We're hoping to talk soon as we're considering a couple of public input opportunities that would potentially coincide with the next ARSG meeting and tour. Whatever we decide, we want to give community members plenty of advance notice. Will you let us know if you might be available?
